

Amendments to the Specification

Please amend the paragraph beginning on page 6, line 18, as follows:

Further, because wear particles generated in the solenoid are discharged through the lower through-hole, it is possible to prevent the plunger from sliding in wear particles, which would otherwise accelerate wear, and hence it is possible to improve durability.

Please amend the paragraph beginning on page 8, line 7, as follows:

~~BEST MODE FOR CARRYING OUT THE INVENTION~~
